

Wireless BlueVQL-Headset™

Voice-Insight's Hardware Solutions

Voice-Insight has developed a unique portfolio of hardware devices and accessories for use in mobile field applications such as Logistics and Inspections, but not limited to them. All these applications, as a result, benefit from this "hands and eyes free" performance.

The **BlueVQL-Headset** is the ideal companion for mobile professionals and can be used in a variety of situations such as a sorting table or mobile forklift with embedded terminal.

The **BlueVQL-Headset** is based on the Bluetooth connection, and provides exceptionally high-quality vocal recognition, even in very noisy industrial environments.

The **BlueVQL-Headset** is delivered with a "paired" adaptor that enables wireless interface between the Headset and any standard audio device, such as a desktop PC, a Laptop or an embedded mobile terminal in Logistics.

The **BlueVQL-Headset** has a range of over **10 meters**. The Headset earphone consists of all the requisite electronics and has a highly flexible mounting mechanism allowing a convenient placement on either ear. The positioning of the microphone is indicated by a white spot on the flexible arm.

BlueVQL-Headset™ Specifications

High-quality audio signal

- Improved A/D and D/A conversion rate for true Voice-recognition.

Monaural Headset

- Flexible mounting strap allows Headset placement on the left or the right ear.

Versatile Connectivity

- All PC types (desktop, laptop or ultra-portable).
- All types of mobile hand-held terminals (Logistics).

Hands-free through Wireless connection

- Range in excess of 10 meters.
- In/Out of range automatic resynchronization with the terminal.

Multiple headsets of connections

- Up to six (6) BlueVQL-Headsets can be paired with the same Audio Adaptor with automatic on/off-switch (per user, 1 individual headset, all sharing the same mobile terminal).

Accessories of the BlueVQL-Headset™

Charging connector for BlueVQL-Headset Class-2

This Connector is fixed on the headset for conveniently recharging on the charging dock.

Charging connector for Audio Adaptor (Class-1 and Class-2)

This Connector is fixed on the Audio Adaptor for conveniently recharging on the charging dock.

Charging Dock: Charger for 2 BlueVQL-Headsets

The Charging Dock for the BlueVQL™ Audio Kit is utilised to charge both headset and Audio Adaptor.

Headset strap

To ensure better stability.

Foam for microphone

Protects the microphone.

Earphone cover in leather

For maximum comfort.

**All BlueVQL components are CE and FCC compliant
as well as IP 64, RoHS, EMC and LVD certified**
